Due to the unusual weather challenges for spring 2019, producers may choose to take Prevent Plant. With these changes, the Wood SWCD Interseeding Program is no longer an option. The new Prevent Plant Cover Crop Program will be in lieu of the interseeding into corn program. \$15,000 of the SB 299 funds were allocated for the district interseeding program. The \$15,000 will now be directed to the Prevent Plant Cover Corp program. Jim Carter presented this option to Andrew Kalmar as an option for the County Commissioners to match funds. \$15,000 will also be available from the SB 299 Phosphorus Program.

The program specifics are \$10/ acre with a maximum of 100 acres per entity. Payment not to exceed %50 of total seed cost. Planted no later than September 3, 2019 and must over winter to March 15, 2020. Payment to be made March 2020 following verification by Wood SWCD.

Kris moved to approve beginning the program with \$30,000. Lee seconded. Motion carried.

Bernie moved to rescind the interseeding into corn program. Kris seconded. Motion carried.

The next regular board meeting will be Friday, June 21, 2019 at 8:00 AM.

Being no further business, Dennis moved to adjourn the meeting. Bernie seconded. Motion carried. Meeting adjourned at 8:46 AM.

Respectfully submitted by Julie Lause, _____.

Ron Snyder, Chairman

Bernie Scott, Secretary
